

Role description

Tanner Kibble Denton Architects offers a great opportunity for an enthusiastic architect or graduate with an interest in heritage to work on some unique heritage and architectural projects. We're looking for someone who is focussed and passionate about heritage conservation and adaptive reuse.

The position

Working with our dedicated and award-winning heritage team, you will be responsible for a range of activities including fabric conservation, adaptive reuse and report writing:

- documentation of heritage fabric repairs
- design and documentation of the adaptive reuse of historic buildings
- writing heritage impact statements
- preparing heritage assessments
- preparing Development Applications
- providing heritage advice
- writing conservation management plans
- preparing heritage interpretation plans and strategies
- archival recording

Your experience and skills

- Master of Architecture
- Post graduate studies in architectural conservation is an advantage
- Membership of Australia ICOMOS and AIA is desirable
- At least five years' experience in heritage architecture
- A sound knowledge of conservation practice
- Technical knowledge of the repair and conservation of historic building fabric
- An understanding of NSW's heritage planning framework
- Excellent writing and communication skills
- Proficient in AutoCAD, MS Office and InDesign

Employment type

- Full time
- Immediate start available
- Salary negotiable

Please send your applications to careers@tkda.com.au. Please mention "Heritage Opportunity" in your subject line. Please include current references.
